STEADMANS LG200

COATING PERFORMANCE WARRANTY

Steadmans LG200 is an extremely durable leathergrain plastisol product suitable for external use on a wide range of industrial, commercial, retail and leisure buildings.

Steadmans offer a variety of profiles and products produced in LG200 with a predicted service life expectancy of 40 years.

The warranty of up to 30 years to first maintenance offers confidence and assurance to specifiers and building owners alike.

Life to first full repainting for plastisol coated profiles

Colours	Wall profiles		Roof profiles	
	Inland	Coastal	Inland	Coastal
Group 1	30	25	25	20
Group 2	25	20	20	15

Table based on a combination of guarantees from 3 mills.

For colour group 2 applications - if the orientation is S, SE or SW a reduction of 5 years should be applied to the above figures.

Guarantee periods quoted are applicable to UK & Ireland only.

Figures under coastal heading apply to buildings within 1.5 miles of shoreline.

New Red 04D44 Group 2

The standard colour references shown above are the nearest equivalents

The printed colours shown are for guidance only. For a true representation please obtain an actual metal swatch sample available on request from Steadmans.

To ensure tonal consistency between components for a single contract material should come from the same production batch and therefore should be placed as one order.

STEADMANS LG200

BENEFITS

- 8-part construction
- 200 micron abrasion resistant durable top coat
- Galvanised substrate offering good corrosion resistance
- Attractive leathergrain emboss
- Wide choice of colours available
- High performance reverse side backing coat
- Performance Warranty up to 30 years

8-PART CONSTRUCTION

- ① Top coat
- ② Primer
- ③ Chemical Pre-treatment
- ④ Zinc/Aluminium Coating
- ⑤ Substrate
- ⑥ Chemical Pre-treatment
- ⑦ Zinc/Aluminium Coating
- ⑧ Protective paint coating

PERFORMANCE DATA

Property	Data	Test
Paint thickness	200µm	EN13523-1
Gloss	15 - 40	EN13523-2
Scratch Resistance	> 35N	EN13523-12
Taber abrasion resistance	10-15mg	EN13523-16
Impact Strength	18 Joules	EN13523-5
Adhesion	satisfactory	EN13253-6
Min. bend Radius (T)	0	EN13253-7
Corrosion Resistance		
Salt Spray (hours)	1000	EN13253-8
Humidity (hours)	1000	EN13253-25
Max.surface temp.	60°C	Mill
Reaction to Fire	Class 0	BS476 part 6 & 7
Resistance to fire	Class AA	BS476 part 3

General notes

The figures contained in this table are typical properties and do not constitute a specification.

ENVIRONMENTAL CREDENTIALS

We recognise the need to manage the impact which our business and processes have on the environment.

We believe we have a responsibility to contribute to the well-being of the communities we live in.

We are committed to providing a clean, safe environment.

Developing sustainable construction methods presents a challenge to the whole construction industry.

Our main raw material, steel, is eminently recyclable: 85 - 90% of steel from demolition goes for re-use and 40% of steel used in new construction has been recycled.

By using modern machinery and upgrading our facilities we are continually reducing the impact of our products on the environment, and improving their contribution to the long-term performance of buildings.
